

Dear TLC Professional Group, LLC,

If you cannot do anything about our lawns being constantly ran over we are going to have to find ourselves a Home Owners Association that can get the job done.

What are we making monthly payments to you for anyways?

This isn't the first time this issue has arisen. Year after year you do nothing to correct this problem.

Other issues that you turn a blind eye to: Vehicles parked double in their driveways blocking normal pedestrian traffic on the sidewalks.

Vehicles parked on the street every single night of every single day after midnight. Utility covers damaged in lawns and not repaired, for ever.

I know of several other HOA's that have committees that do a monthly drive through during the day, late evening and early morning hours noting violations and actually addressing them. Perhaps it's time you stepped up or stop taking our money.
