From: Seven home owners in Waters Edge

We recently had delivery trucks drive over our lawns doing significant damage. The lawns are between the street and our sidewalks.

After discussing this with each other and our neighbors across the street and on the corners, it is obvious that the Home Owners Association, which we pay money to every month, will do absolutely nothing about this. Several of our neighbors have complained to you and the Port Orange Police Department. Nothing is ever done and no one is ever cited or prosecuted for this code violation.

We home owners have to water and cut the grass and we are apparently responsible to have the lawn repaired out of our own pockets. **WHAT ARE WE PAYING**

YOU FOR is our question? Since you are helpless to do anything about this anyway, correct?

Several ideas have come to mind to remedy this issue: (1) - Stop paying the HOA for services not provided. (2) - Install 5 inch X 4 foot high pipes mounted in concrete bases on every corner and paint them bright yellow. Also install them in high traffic areas. (3) - Have the city install **NO PARKING BETWEEN 8 AM - 5 PM** signs directly across from roadways that are not thru roadways. (4) - The HOA contact the police department and cite offenders that damage property.

We ALL are waiting to hear back from you. **SOMETHING** must be done very soon.
